

Eastcote Hockey Club

Ruislip, England

Project Facts

Lighting System

- 34 *SportsCluster-2* fixtures with *Multi-Watt*™ and *Total Light Control*™ options
- (6) 15 meter *Light-Structure Systems*™

Performance

- 350 lux, high power
- 175 lux, low power

Key Issues

Light Control

- *Total Light Control*™ option reduces off-site spill light and glare up to 95%, minimising light trespass on adjacent properties
- Potentially wasted spill light is redirected onto the playing surface, providing efficient, uniform light

Energy Efficiency

- *Multi-Watt*™ option — a two-level switching system — provides significant energy savings with programming flexibility. Low mode reduces light levels to 50% for practice and five-a-side football use

Quality of Light

- Average uniformity is .7
